

Greenprint Partners

CAPABILITIES STATEMENT

Greenprint Partners is a planning and civil engineering firm that believes every community deserves to be served by infrastructure that is sustainable, resilient, and equitable. Headquartered in Chicago with offices in Milwaukee, Minneapolis, San Diego and Seattle, our team of urban planners, civil engineers and community engagement professionals work collaboratively to balance technical performance and community impact in every project.

SERVICES

**Equity-centered planning,
community engagement and
program management**

**Sustainable civil engineering
services**

PLANNING & TECHNICAL ASSISTANCE

- Climate Resiliency + Green Infrastructure
- Sustainable Transportation
- Evaluation + Reporting
- Funding Support + Grant Writing
- Workforce Development
- Equity Training + Advising
- National Industry Research + Thought Leadership Publications

CIVIL ENGINEERING + CONSTRUCTION MGT

- Feasibility Studies
- Design Engineering + Permitting
- Sustainable Site Development
- Stormwater Management
- Low-Impact Development / Green Infrastructure
- Green / Complete Streets
- Bike & Pedestrian Paths

PROGRAM MANAGEMENT

- Equitable Infrastructure Program Management
- Green Stormwater Infrastructure Programs
- Green Schoolyard Programs
- Program Design + Pilots

COMMUNITY ACTIVATION

- Community Knowledge Sharing
- Coalition Building + Stakeholder Management
- Surveys + Design Workshops
- Strategic Communications + Storytelling
- Public Engagement
- Photography + Videos

DIFFERENTIATORS

- **An authentic commitment to centering sustainability and equity in every project.** As lead author of *The Equity Guide for Green Stormwater Infrastructure Practitioners*, our team ensures that frontline communities share in the environmental, social and economic benefits of sustainable infrastructure, and participate in the decision-making processes that shape the infrastructure built in their communities.
- **Trusted advisor to public agencies seeking to develop, pilot and grow equitable, sustainable infrastructure programs.** Greenprint's focus and national experience brings unique perspective that helps agencies overcome barriers to achieving their sustainable infrastructure goals.
- **A benefits-driven approach to civil site design that prioritizes community input and sustainable, nature-based solutions.** Our experienced civil engineers balance community priorities, budget, site use, and long-term maintenance capacity to maximize sustainable design solutions like green stormwater infrastructure for environmental and community benefit.

REPRESENTATIVE CLIENTS + PROJECTS

Milwaukee Metropolitan Sewer District

- Fresh Coast Green Communities Green Infrastructure Program
- Fresh Coast Suburban Green Schoolyards

Metropolitan Water Reclamation District

- Green infrastructure engineering design
- Suburban green schoolyards

Metropolitan St. Louis Sewer District

- Private property green infrastructure retrofits

Cook County, IL

- Rain Ready Calumet Green Infrastructure Program

King County, WA

- Mouth of Duwamish CSO Program

Philadelphia Water Department

- Private property green infrastructure retrofits

San Francisco Public Utilities Commission

- Private property green infrastructure retrofits

Vermont Dept of Environmental Conservation

- Green Schools Initiative

San Diego County

- Green infrastructure Rebates & Incentives program

The Green Infrastructure Leadership Exchange

- *Equity Guide for Green Stormwater Infrastructure Practitioners*
- Green Infrastructure "State of the Field" report

TEAMING PARTNERS + COLLABORATORS

AECOM • Baxter & Woodman • Bloom Companies • Center for Neighborhood Technology • Craftwater Engineering • Geosyntec Consultants • HNTB • Kahler Slater • Learning Landscapes Design • Lotus Water • Nature Conservancy • Parametrix • Quantified Ventures • RES • site design group • Tetratex • TY Lin • Trust for Public Land • WSP

COMPANY DATA

- **Size:** 25 employees (8 civil engineers, 11 planning/program mgt, 2 executive, 2 strategic communications + 2 finance)
- **Headquarters:** Chicago, IL
 - Other locations: Milwaukee, WI; Minneapolis, MN; San Diego, CA, Seattle, WA
- **NAICS:** 541320, 541330, 541620
- **Registered Professional Engineers:** IL, WI, MO, PA, CA, VT, MI, GA, WA, NY
- **Certifications:**
 - MBE: City of Chicago*, State of Washington*
 - WBE: City of Chicago, State of Illinois, Milwaukee Metropolitan Sewerage District (MMSD), Metropolitan Water Reclamation District (MWRD), LA County, City of Philadelphia, Washington OMWBE, WBENC
 - DBE: Illinois, Wisconsin, Minnesota, Texas, Vermont, Washington
 - SBE: MMSD, MWRD, CTA
 - WOSB
